# Canton Alliance Massillon Section News

Volume 54 Issue 2 November, 2002

The Canton Players Guild Theater Presents,

## Christmas Carol

The original non-musical version of the classic Dickens tale. Watch the magical transformation of mean-spirited Scrooge as he is visited by Christmas Past, Present, and Future in this heart-warming holiday tradition.

Friday, December 13, 2002

8:00pm Performance Time

Our CAM Section has purchased 20 tickets for the December 13<sup>th</sup> performance and are offered to CAM Section members, family, and friends for a price of \$15 for adults and \$12 for students and children. If you are interested in attending or have questions, please contact Rick Borowski by December 6<sup>th</sup>. Rick can be reached by email at borowskr@timken.com, or by phone at 330.471.2713. Enjoy the show!

### Upcoming Events

- The CAM Section of ASME has invited Mr. Fred Krum to give a talk on the Akron-Canton Airport expansion and security for the January program.
- Also, as part of the January program, the CAM Section will hand out service and anniversary awards to the respected recipients.

More details will be announced as the meeting nears.

### *Happy Thanksgiving*

From:  
The CAM Section Officers  
and Board

### CAM Section Board Meeting

**What:** November Board of Directors Meeting

**When:** Thursday November 21, 2002 @ 6:00pm

**Where:** Bachelli's Italian Villa and Steak House  
(Board Meeting to Follow Dinner)

# 2002 ASME INTERNATIONAL MECHANICAL ENGINEERING CONGRESS & EXPOSITION

Nov. 17-22, 2002  
New Orleans, Louisiana

'The One Event for All Engineers'

Featuring eight extended programs focusing on: Electrical Systems Design, Energy, Engineering Systems Design, Photonics, Nanotechnology, MEMS, Biomedical Technology and Transportation.

Log on to <http://www.asme.org/Congress> for information on hundreds of technical sessions and papers.

## Interested in Nominating A Colleague for Fellow?

Recognize a colleague's engineering achievements by nominating a member for the grade of Fellow. An ASME Fellow is one who has attained a membership grade of distinction at the time of advancement. The member shall be a corporate member of the Society, shall have been responsible for significant engineering achievements, and shall have had either not less than 10 years of active practice and 10 years of continuous corporate membership in ASME, or 20 years of active practice and 5 years of continuous corporate membership in ASME.

To get additional information on nominating a member to the grade of fellow, log onto <http://www.asme.org/member/fellow/index.html> or call John Beck at 212-591-8463.

### The Value of Your Membership Has Just Increased

If you have earned a baccalaureate degree or an advanced degree and have been out of school 4 years or less you can save up to 60% on Member Dues. Checkout the current member dues rates available at

<http://www.asme.org/member/info.html>

## Voices of Innovation

### A Daily Radio Series That Celebrates the World of Engineering

Have a great story about a product you invented, the process you created or the work that you do? Ever wanted to be a star on radio or television? Want to help educate the public about the value of engineering?

*Voices of Innovation* is a new public radio program being launched by the American Association of Engineering Societies, with generous support from ASME. It will feature the voices of engineering in two-minute programs that explore and celebrate the world of engineering. The program will profile engineers who talk about their inventions, their work life of their careers. Each one will be a story of its own. The search is on for engineers with a story.

If you or someone you know has an engineering story to tell, submit a story idea form, which is available at [www.voicesofinnovation.com](http://www.voicesofinnovation.com). You may also find samples of stories on the website. Help illustrate the passion, excitement, and genius that inspires the men and women who make the technological miracles a part of our everyday lives.

## Diversity Action Grants

The Diversity Action Grants program provides funding to ASME Student Sections to sponsor projects designed to increase the participation of women and under-represented minority groups in ASME Student Section activities and in the mechanical engineering community.

Projects should be collaborative partnerships with other minority and women's engineering societies on campus, e.g., NBSE, SHPE, SWE. Examples of activities funded by the Diversity Action Grant Program may be found at

<http://www.asme.org/bmw/DAGsuccessfulprojects.html>.

For more information, as well as a grant application, go to <http://www.asme.org/bmw/dag.html>

Held in conjunction with the ASME International Mechanical Engineering Congress & Exposition.

## Career Essentials

Join us in New Orleans, Sunday, Nov. 17, 2002 at the 22<sup>nd</sup> Young Engineers Forum (YEF). This one-day program will deliver informative presentations and a panel discussion focused on *Career Essentials* – to help you reach your full potential. You will have the opportunity to listen to experienced engineers share their knowledge on how to navigate a traditional or non-traditional engineering career, ask questions and walk away with valuable insights into your profession

## Recruitment and Retention Kit Added to the Online Local Information Center!

ASME has created a new recruitment and retention kit for sections with specific tools to help you get new members and retain your current members.

Included in the kit are tips on recruiting face to face, a downloadable list of ASME benefits, sample renewal letters and emails, and phone scripts for welcoming young engineers and encouraging members to renew.

To access this new feature, visit the Local Leadership Toolbox at [www.asme.org/leadershiptoolbox/r&r.html](http://www.asme.org/leadershiptoolbox/r&r.html). Please direct any questions or comments regarding the Recruitment and Retention kit to Roberta Gorman, program manager, Membership at [gormanr@asme.org](mailto:gormanr@asme.org)

## PE and FE Review Products from CEI

### FE Products

FE to GO- Now you can study wherever you are. The FE to Go exam review goes where you go in your Palm™ PDA. This PDA-based training tests you on 198 multiple choice questions-with answers and explanations. When you have finished it you get a score so you can track your progress.

### Revised PE Online Review

The PE Exam was revised for fall 2001. Our existing PE Exam Review Self-Study has been revised to conform to this new multiple-choice format. Now you can cover the necessary topics and become familiar with the new test format as you review.

PE Exam Review Online Self-Study is an online, instructor-assisted course, which you can access anytime from your PC- review at your own pace and ask the instructor questions as needed.

For information on these and other PE and FE exam prep products and courses, visit our website at: [http://www.asme.org/pro\\_dev/exam\\_preparation\\_courses.htm](http://www.asme.org/pro_dev/exam_preparation_courses.htm). Or contact Thomas Kuehl, 212-591-8013, ([kuehl@asme.org](mailto:kuehl@asme.org))
