# Financial Advice Coming Your Way!

## Editor's Corner...

This month we have two programs for our members. The first one, the *Rahal Racing Team on March 9<sup>th</sup>* is a joint program with ASM. This meeting was originally scheduled for January, but due to inclement weather, it was rescheduled. The second meeting is a presentation *Personal Finances by Morgan Stanley/Dean Witter on March 24<sup>th</sup>*. We hope you can take advantage of these programs.

Speaking of taking advantage of programs, are you aware of all of the programs that ASME provides to its members? We are all members in ASME, but how many of us are taking full advantage of the member services? CAM Section has been pushing electronic communications lately due in part to the increase in computer use at work and home, and the accessibility of e-mail. Almost all of us are now capable of receiving email, but how many different e-mail addresses have you had over the past few years? I personally have had four different e-mail addresses. Why? Changes at work, changes in ISP (Internet Service Providers), etc. This can pose a problem when trying to keep in contact with friends and work associates.

Well, ASME offers a solution to the problem of ever-changing e-mail addresses. ASME offers you an e-mail address that is maintained for LIFE! As long as you keep your membership paid in full, you reap the benefits of a permanent e-mail address. ASME e-mail addresses will follow you wherever you go. This makes changes simple, you simply change the address ASME uses to "forward" your mail. This can be done easily at the ASME website. Your contacts only have one e-mail address to remember! Check it out at [www.asme.org](http://www.asme.org)!

I have to personally say that this helped me out in the transfer from college e-mail to a local ISP to work e-mail. I redirected my ASME address with each move and my friends never knew changes were occurring. I urge each one of you to take advantage of what ASME has to offer you in the way of electronic communications. We here at your CAM Section remain available to help you in any way.

### **E-mail Convenience!**

Your fellow CAM members are receiving their newsletters electronically - ARE YOU? Many members are missing this convenience because we don't have your e-mail address.

If you would like to receive newsletters electronically, please send your e-mail address to [rob.m.privette@mcdermott.com](mailto:rob.m.privette@mcdermott.com). As always, feedback is appreciated.

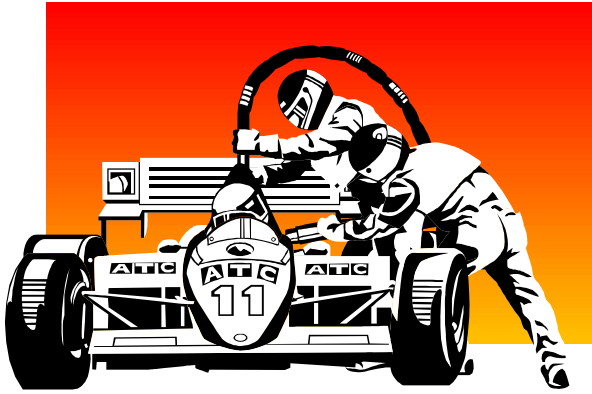

***Nearly 400 Stark County engineers receive this newsletter each month.***

**ASM and ASME  
are pleased to sponsor a joint meeting featuring:**

**Bobby Rahal Racing Team members  
Don Hayward and Bryan Holzinger,  
Presenting**

**Materials & Mechanical Design Issues  
in Auto Racing**

Competitive auto racing, such as Championship Auto Racing Team (CART) events, creates severe mechanical environments for vehicle materials and mechanical systems. Forces during cornering can easily reach and exceed 4G's. This multimedia presentation will include case studies that illustrate the problems and solutions encountered in the design and operation of Indy-Car racing.

**Cost: \$12 ASME members, \$10 Retirees, \$5 Students**

**Where: Lolli's Restaurant, 4801 Dressler Rd, Canton**

**When: March 9**

**Sign-up deadline: March 4**

**Meal: Orange Roughy or Sirloin Steak**
