

LOCAL UPCOMING EVENTS

This month we have decided to present the newsletter a little differently. Most of the regional and national activities and information are available through the ASME website, so please visit it to keep updated on regional or national issues and events. We wanted to focus on some local events coming up and hope to see continued good participation in these activities to finish the year on a good note.

Senior Section March Meeting, March 23

The **March** meeting will be a tour of Atlantic Marine on March 23. We will meet at the Atlantic Marine Human Resources Building (to the right of the main gate) at 5:15. Atlantic Marine is located south of Interstate 10 on Dunlap Drive on Pinto Island. All attendees must bring hard hats and safety glasses. Atlantic Marine is also sponsoring a barbecue dinner for attendees. See the attached map and contact Keith Lafleur (476-2342 x102) with any additional questions.

For reservations, call Ray Miller at 342-1070 or send an email to rmiller@volkert.com.

Reservations must be received no later than noon on Friday, March 19. I will be out of town on Monday, March 22 and must get a head count in on Friday the 19th.

RAC/RSC, April 1-4

The time has almost arrived. Charles still needs help to pull this off and several people have contributed greatly to accomplish hosting this event. Contact Charles Busby if you have questions or want to help.

Student Section Design Projects, April 27

It is always exciting to see what our student members are working on and get a glimpse of what may be coming our way. Details about time and place will follow in the April newsletter, but mark your calendars to attend this enjoyable event on Tuesday, April 27.

Golf Tournament, May 7

The ASME golf tournament is scheduled for Friday, May 7, 2004 for a 1:00 shotgun start at the Linksman. Registration will be at noon. A barbecue dinner will follow and great prizes will be awarded. Mark your calendars now and contact David Harris if you would like to help coordinate the event or participate. Visit the section web page at www.asme.org/sections/mobile for more info.

End-of-the-Year Party, Late May/Early June

We are working on the date to finalize this event, but we plan on continuing our tradition of a Friday evening event that is open to all members, student members and their families.
