

# Nebraska Section ASME

## Executive Committee Meeting Minutes

**Date: May 2, 2006**

**Time: 6:00 pm**

**Location: Utility Engineering**

### In Attendance

Loscutoff, Madsen, Miller, Randall, Redinger, Rerucha, Stransky

### Treasurer's Report

Final tally's for PD courses included \$1,943.21 profit for March course and \$2,733.30 for the November course. This resulted in a total profit of \$4,676.51. This was above budget and will benefit the section for next year since there will be no financial allocations from national for the 2006/2007 year.

The section has a CD that will mature in May. Bill will look into changing accounts to maximize yield and simplify the job of the treasurer if possible.

### Government Relations Board

Many bills were tabled in the legislature due to focus on LB1024 and budget cutting bills.

### Membership Report

Section renewals continue to be very good for the region. Mark will discuss his concepts for the 2006/2007 membership campaign at the June meeting.

### April Meeting Recap

19 attended the tour of Air-Lite plastics. Many commented that the facility was very impressive due to its food grade cleanliness requirements, and also due to the very high speed and precise manufacturing equipment.

### May Air Guard Test Flight

The tour will be on 5/10/06. Dave Stransky will send out the final details to the attendees this week.

### June Meeting

Members will be encouraged to attend the NSPE golf outing in June. There will not be an ASME section meeting. It is recommended that next year, ASME try to do the golf outing as a cooperative event with NSPE (as in the past). NSPE generally takes the profit from this event, but ASME can have their name on the flyer and advertise the event to ASME members.

### Newsletter

The last newsletter of the ASME year will be sent out around May 15. This newsletter will include a recap of the Air National Guard tour

### Next Meeting

The next exec meeting is scheduled for Wednesday, June 6, 2006 at Utility Engineering at 6:00 p.m.
